PROFESSIONAL SUMMARY

Dynamic Front-End Developer with a year of hands-on experience in creating engaging and responsive web applications. Proficient in HTML, CSS, and JavaScript, with a strong foundation in React, delivering seamless user experiences that drive engagement and sales. Demonstrated ability to manage projects from conception to execution, successfully integrating interactive features and real-time data. Committed to enhancing web functionality and performance through innovative design and coding practices. Ready to contribute to a collaborative team environment focused on cutting-edge web solutions.

EXPERIENCE

E-commerce Website

Personal Project

October 2024 - November 2024

Built a fully responsive e-commerce site using HTML, CSS, JavaScript, and React. Integrated cart and product pages.

Created and managed e-commerce activities that resulted in a X% increase in online sales

To-Do List App

Personal Project

November 2024 - December 2024

Created a to-do app with CRUD operations using React and localStorage.

Weather Website

Personal Project

December 2024 - January 2025

Developed a weather app using HTML, CSS, and JavaScript, fetching real-time data from OpenWeatherMap API.

Portfolio Website

Personal Project

February 2025 - March 2025

Designed a personal portfolio to showcase projects, skills, and contact info. Built with responsive design principles.
